Mobile application developed for the module Mobile Application Development  
Technologies -: Kotlin, Firebase

### Veterinary Clinic and Online Pet Accessory Shop Management System

Web application developed for the module ITP  
Technologies -: MongoDB, Express JS, React JS, NodeJS, Firebase

## Objective

A highly motivated and enthusiastic individual with a strong drive to learn new things. As an undergraduate, I am open to new knowledge and experiences. Integrity, punctuality, teamwork, leadership, and discipline are some of the key values that I have learned and developed in myself during my school and university tenure. Being a former prefect helped me to enhance my ability to work within teams, achieve common goals, and think out of the box all the time. I would like to perform at my highest ability while uplifting the standards of the organization and the industry if given an opportunity.

## Interests

- Frontend Developer Intern
- Backend Developer Intern
- Full - Stack Developer Intern
- Software Engineering Intern
- Mobile Application Developer Intern

## Personal Information

- Name - A.S. Charun Githsara Senarathne
- Gender - Male
- Civil Status - Single
- Ethnic Group - Sinhala
- Religion - Buddhism
- NIIC Number - 991841067V
